EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with S. Craig Hemenway on February 27, 2007.

The application has been amended as follows:

IN THE CLAIMS

In claim 17, line 1, replace "16" with -31--.

In claim 26, line 2, replace "obturator" with -obturation sleeve--.

IN THE ABSTRACT

Replace the Abstract with the following:

--A sigmoidoscope comprises at least one disposable part, in combination with a device for insufflation of a body cavity with a medium via the sigmoidoscope, the medium being susceptible to contamination by a contaminant during use of the sigmoidoscope. The insufflation device and the sigmoidoscope are connected, or adapted for connection, to one another. sigmoidoscope and no non-disposable part of the insufflation device is exposed to any contaminated medium during use of the sigmoidoscope.—

IN THE SPECIFICATION

In the first paragraph, as inserted by the Amendment filed on May 31, 2002, after “29 July 1999,” insert –now U.S. Patent 6,350,233,--.

2. The following is an examiner’s statement of reasons for allowance: In view of the amendments to the claims and remarks (bottom of page 9 to page 10) filed December 8, 2006, the rejection of the claims over Fiore is withdrawn. Since claim 41 (the only independent claim) now recites a combination of elements that is not explicitly taught or fairly suggested, alone or in combination, claim 41 is allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
